To approve the minutes of Committee Meeting 21st November 2018

**3. Speakers for next Season.**

We have received the following approach (unsolicited).

Please could committee members take a quick look at his site before the meeting and have a think as to whether he would make a suitable speaker?

He does seem to have a few dates booked at local clubs this year.

My name is Tommy, I wanted to reach out to offer/share a talk with your members at some point in the future, I understand the season gets booked up swiftly but making contact is a good start and possibly get on the agenda for the following season.

My talk shares my photographic journey; travel based, with images from a world away, primarily portraits, relationships and the stories behind and beyond how we met and created the images.

I recently held an exhibition in Tavistock and my talk was attended by 130 lovely humans and proved popular. following a few talks to clubs I'm currently booking for this and next seasons club nights if it would be of interest to your members.
